seen a Plastic field?**

PURE

PLA PLASTIC

Line of products made of PLA (PoliLactic Acid), deriving directly from corn starch from certified cultivations, based on natural components and with no addition of chemical stabilizers.

ENDURANCE

The high density and resistance material grants to all the products long lasting use in all conditions.

COLOR

The items are supplied only in cristal clear color, without any industrial dye, in order to maintain intact the purity, with the maximum respect for the environment.

100% ECO-SUSTAINABLE

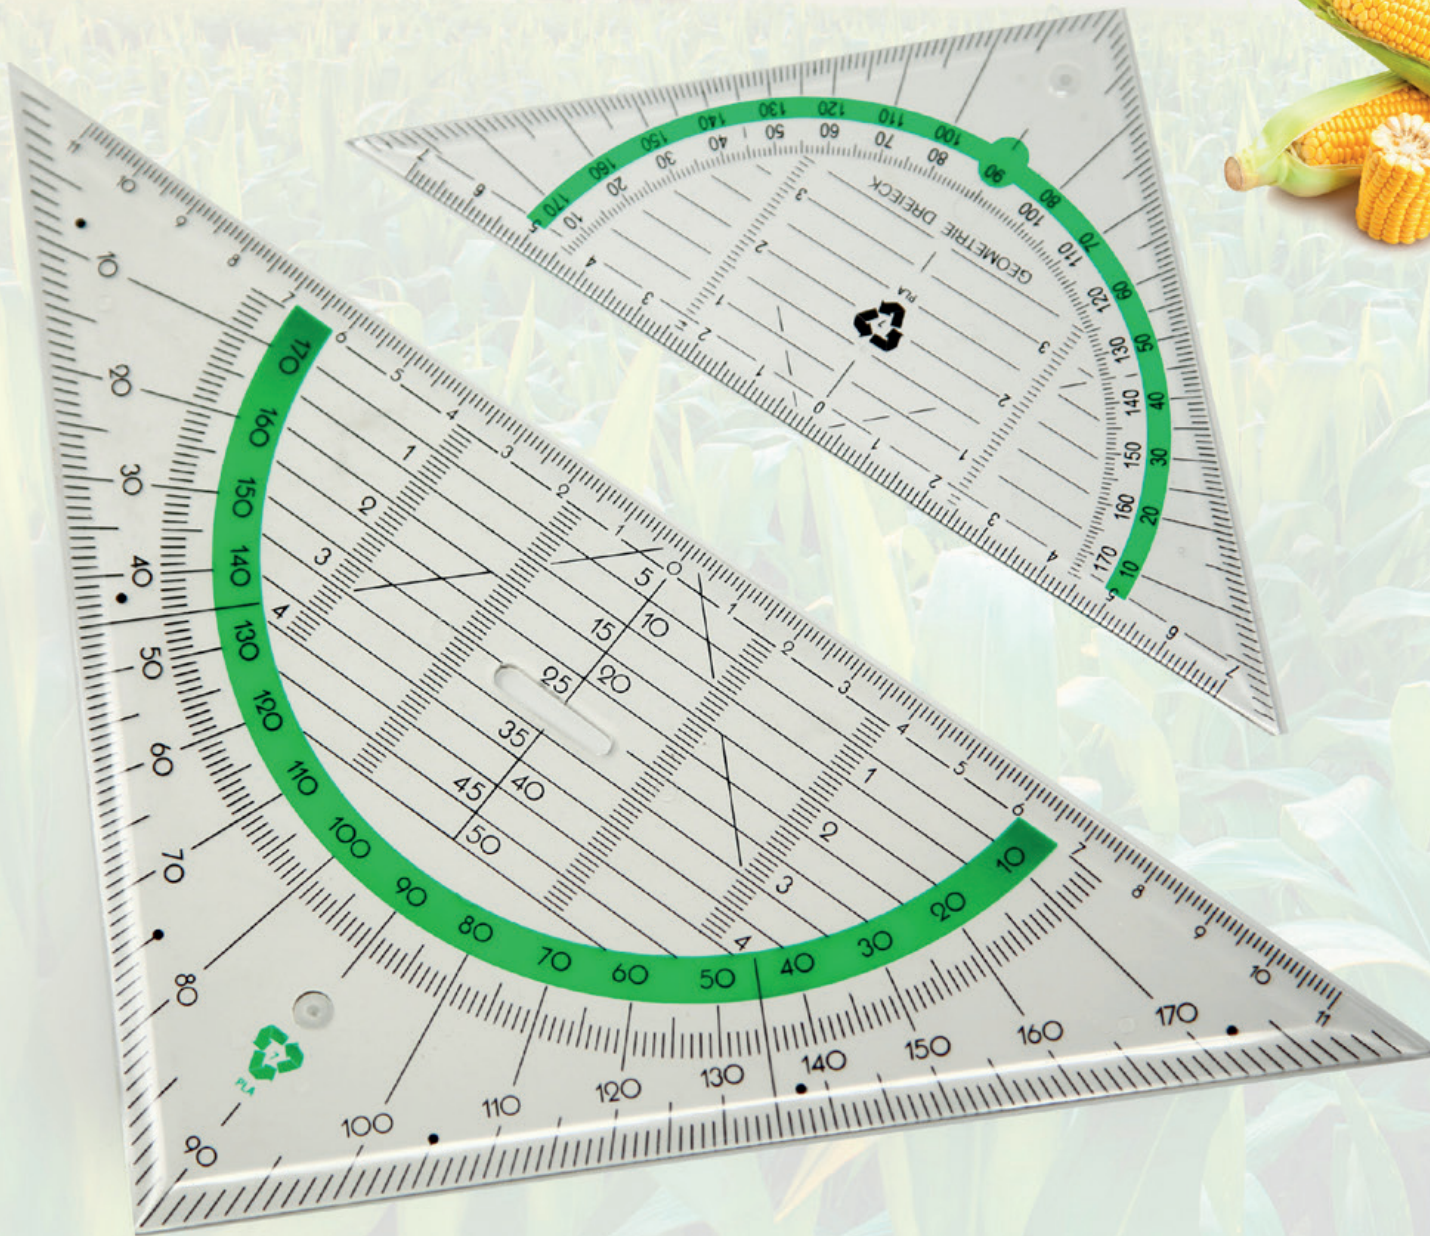

Products are 100% biodegradable and compostable. At the end of their life they must be conferred in the humid fraction of urban waste, obtaining in such way a utilization cycle with zero environmental impact.

PURE

Your brand on our PLA line.

For more than 30 years we have been producing in "private label" for major Italian and international brands and also our new PURE line can be branded with your brand. This allows you to have visibility as an environmentally conscious company in line with the new Green Thinking directives. Cardboard counter display, clear PLA wrapping and drawing items are 100% biodegradable.
